Poštovani,	<p>Poštovani,</p> <p>Naručilac je u više navrada istakao da Projekat izgradnje beogradskog metroa, predstavlja projekat od značaja za Republiku Srbiju, što je dokumentovano zaključcima Vlade RS. Ističemo da bez zaključenog ugovora za pružanje usluge upravljanja projektom i nadzora nad projektom izgradnje beogradskog metroa za lokacije depo Makiš i Linija 1, nije moguće pristupiti potpisivanju međudržavnih ugovora sa izvođačima radova, odnosno preuzimanju obaveza u cilju dalje realizacije projekta.</p> <p>Napominjemo da je prvi i osnovni zadatak pružaoca usluge (tima okupljenog oko Project managera - PM), da pruži stručnu pomoć naručiocu pri izradi ugovora o izvođenju radova,</p>

postavite i pre 15.12.2022. godine (7 dana nakon postavljanja pitanja).

Zaključak Vlade Republike Srbije 05 br. 351-9638/2019-1 od 10. oktobra 2019. godine koji pominjete u javnom pozivu, ni u jednoj tački ne navodi da je postupanje u vezi za izborom Ponuđača za predmetnu uslugu hitno. Rok za važenje ponuda koji ste odredili takođe odstupa od načela hitnosti jer ste naveli 120 dana, a prema zakonu minimalni rok za važenje ponude je 30 dana, što dodatno ukazuje da ne postoji valjan dokaz za insistiranje na kratkom roku. Producenje roka samo može pozitivno da utiče na povećanje konkurenčije i da omogući da inostrani /domaći ponuđači pripreme dokumentaciju nakon božićnih i novogodišnjih praznika koji su neradni dani.

kako bi stečena iskustva PM primenili na otklanjanje ili umanjivanje rizika koji može doprineti nastanku posledica nesagledivih razmera po naručioca/investitora. S tim u vezi, Naručilac je prinuđen da najkraćem roku sprovede predmetni postupak, u cilju odabira pouzdanog partnera, sa odgovarajućim referencama i iskustvom.

Nadalje, u pogledu definisanog roka važenja ponude od najmanje 90 dana, Naručilac je upravo poučen iskustvom iz ranije sprovedenog postupka nabavke, definisao primeren rok važenja ponude, kako bi osigurao da iste budu važeće i za slučaj da nastupe nepredviđene okolnosti, koje nisu na strani Naručioca. Savestan Naručilac, donosi odluke u interesu predmeta javne nabavke.

Ovim smatramo da su nedoumice u vezi sa definisanim rokova u okviru dokumentacije o nabavci u potpunosti otklonjene.

Dear all,

The Employer has repeatedly pointed out that the Belgrade Metro Construction Project is a project of importance for the Republic of Serbia, which is documented by the conclusions of the Government of the Republic of Serbia. We emphasize that without a signed contract for the provision of project management services and supervision of the construction project of the Belgrade metro for the Makiš depot and Line 1 locations, it is not possible to enter into the signing of interstate contracts with contractors, i.e. assuming obligations in order to further develop the project.

Please note that the first and basic task of the service provider (the team gathered around the Project Manager - PM) is to provide professional assistance to the Employer in the preparation of the contract for the execution of works, so that the acquired experience of the PM can be applied to the elimination or reduction of risks that may contribute to the occurrence of consequences of unfathomable proportions to the Employer/Investor. In this regard, the Employer is forced to carry out the relevant procedure as soon

	<p><i>as possible, in order to select a reliable partner with appropriate references and experience.</i></p> <p><i>Furthermore, with regard to the defined period of validity of the offer of at least 90 days, the Employer has, with the hindsight of the previously conducted procurement procedure, defined an appropriate period of validity of the offer, in order to ensure that the offers are also valid in case of unforeseen circumstances, which are not the responsibility of the Employer. A conscientious Employer, makes decisions in the interest of the subject of public procurement.</i></p> <p><i>Having stated the above, we believe that the doubts regarding the definition of the deadlines in the tender documentation have been completely removed.</i></p>
<p>Dear Sirs, after inspecting the tender documentation, we conclude that the description of the criteria for the qualitative selection of the subject procurement does not contain all the mandatory elements that you require within this procurement in terms of technical and professional capacity and that the document Criteria for qualitative selection and Instructions are not consistent.</p> <p>The instructions should define the way to prove the requirement set by the Investor in document Criteria for qualitative selection, however, the instructions also contain new 2 professional references that are not part of point 3. of Technical and professional capacity within the Criteria for the qualitative selection of the subject procurement.</p> <p>Such action is not in accordance to Law, and creates confusion for potential bidders and makes it impossible to generate a corresponding statement through the Portal, which the Bidder is obliged to submit.</p> <p>Please change the procurement documents and include professional references in point 3.1</p>	<p>Poštovani,</p> <p>Naručilac je na jasan i nedvosmislen način u dokumentaciji o nabavci definisao:</p> <ul style="list-style-type: none"> - Kriterijume za dodelu ugovora i - Kriterijume za kvalitativni izbor privrednog subjekta <p>Shodno iznetom, naručilac upućuje sve privredne subjekte da je u okviru kriterijuma za dodelu ugovora, definisan kriterijum CENA 30 pondera i KVALITET 70 pondera (ekonomski najpovoljnija ponuda). Ističemo da je Naručilac u dokumentaciji o nabavci, dao jasne instrukcije za dostavljanje potrebne dokumentacije.</p> <p>U cilju razumevanja potreba Naručioca, navodimo da komisija naručioca ne može pristupiti rangiranju podnetih ponuda, po zadatom kriterijumu, bez dokaza na osnovu koji je moguće utvrditi ispunjenost traženih uslova. Naime, kako bi odmah po otvaranju ponuda Naručilac pristupio stručnoj oceni, odnosno rangiranju ponuda (po zadatim kriterijumima), neophodni su dokazi kojim privredni subjekti</p>

Procurement documentation must be consistent in all acts.</p>	<p>dokazuju ispunjenost traženih uslovima u okviru Kriterijuma za dodelu ugovora.</p> <p>Nakon izvršenog rangiranja, Naručila će putem Portala za javne nabavke zatražiti od najbolje plasiranog Ponuđača PRIHVATLJIVA PONUDA – RANG 1 (najviše pondera po zadatim kriterijumima za dodelu ugovora), da dostavi dokumentaciju kojom potvrđuje ispunjenost traženih uslova u okviru - Kriterijuma za kvalitativni izbor privrednog subjekta. Dodajemo da je Naručilac u dokumentaciji o nabavci, dao jasne instrukcije za dostavljanje potrebne dokumentacije za utvrđivanje ispunjenosti kriterijuma za kvalitativni izbor privrednog subjekta.</p> <p>Kako bi svi privredni subjekti bili informisani o zakonskom određbi na osnovu koje je Naručilac definisao način dokazivanja, u daljem tekstu pružamo uvid u odredbe člana 32. stav 3. Zakona o posebnim postupcima radi realizacije projekata izgradnje i rekonstrukcije linijskih infrastrukturnih objekata od posebnog značaja za Republiku Srbiju ("Sl. glasnik RS", br. 9/2020):</p> <p><i>"U postupku javne nabavke iz stava 1. ovog člana ne primenjuju se odredbe zakona kojim se uređuju javne nabavke, a koje se odnose na plan nabavki, prethodno obaveštenje, način dokazivanja obaveznih i dodatnih uslova za učešće u postupku javne nabavke, rokove za podnošenje ponuda i rokove za odlučivanje Republičke komisije za zaštitu prava u postupcima javnih nabavki."</i></p> <p>Ističemo, Naručilac je svim privrednim subjektima u dokumentu „Opšti podaci o predmetu javne nabavke“, pružio informaciju o zakonskim odredbama na osnovu kojih sprovodi predmetni postupak, pod stavkom „Vrsta postupka“, tako da glasi:</p> <p><i>"Predmetnu nabavku sprovodi JKP „Beogradski metro i voz“ u otvorenom postupku javne nabavke u skladu sa odredbom člana 32. <p>Poštovani,</p> <p>U odgovorima od 15.12.2022. godine naveli ste da se prilikom rangiranja pondera broj određuje prema matematičkom modelu na dve decimale, što je apsolutno u skladu sa svim pravnim i tehničkim normativima.</p>	<p>Poštovani,</p> <p>Naručilac je definisao jedinicu mere u "km". Naime, pojedinačne projekte izgradnje metroa mašinom za gradnju tunela (TBM) izkazujete u celosti (npr. $8,8 + 2,4 + 10,2 + 15,9 = 37,3$ km), dok zbir svih deonica na projektima izgradnje metroa mašinom za gradnju tunela (TBM) prema</p>

<p>Sa druge strane, u Uputstvu u rubrici „instrukcije za dokazivanje ispunjenosti traženog uslova“ na strani 8 u pogledu poslovnog kapaciteta br. 1 navodite sledeće:</p> <p>Prilikom upisivanja zbirne vrednosti po jedinici mere "km", potrebno je uneti isključivoceli broj. Naime, iskazan zbir deonica na projektima izgradnje metroa mašinom za gradnju tunela(TBM) od 30km i 800m, Naručilac u stručnoj oceni ponuda ceni kao celi broj - 30 km.</p> <p>Molimo Vas za pojašnjenje zašto u pogledu instrukcije za dokazivanje ispunjenosti odstupate od matematičkog modela i 30,80 gledate kao 30 a tenderom je propisana minimalna zbirna ? Zbirna dužina bi morala označava i mogućnost predavanja 2 reference na projektima izgradnje metroa prema kojima 1 projekat ima primera radi 20, 6 km a drugi 8,9 km to bi u zbiru moralо da se računa kao 30,5 km i da je taj ponuđač u prednosti u odnosu na ponuđača koji ima manji iznos.</p> <p>Molimo Vas da uskladite rangiranje ponuda i način vršenja stručne ocene ponuda.</p>	<p>instrukciji Naruciocu upisujete tako da glasi 37 km.</p> <p>Ovim smatramo da su nedoumice u vezi sa instrukcijama Narucajoca pri iskazavanju ukupne vrednosti po jednici mere "km" u potpunosti otklonjene.</p> <p><i>Dear all,</i></p> <p><i>The Employer defined the unit of measure in "km". Namely, individual metro construction projects with tunnel boring machine (TBM) are shown in their entirety (e.g. 8.8 + 2.4 + 10.2 + 15.9=37.3 km), while the sum of all sections on metro construction projects with tunnel boring machine (TBM), according to the instructions of the Employer, is written so that it reads 37 km.</i></p> <p><i>Having said this, we consider that the doubts regarding the instructions of the Employer regarding showing the total value per unit of measure "km" have been completely removed.</i></p>

Tekst zahteva	Odgovor - pojašnjenje

<p>Poštovani,</p> <p>ispred kompanije "CHINA RAILWAY DESIGN CORPORATION SERBIA OGRANAK BEOGRAD-SAVSKI VENAC" iznosim sledeći zahtev, u nadi da ćete ga uzeti u razmatranje.</p> <p>Naša kompanija u ovom trenutku veoma aktivno proučava i priprema tendersku dokumentaciju, međutim zbog velike količine dokumentacije koju je potrebno pripremiti, prevesti i overiti, a za šta je potrebno dosta vremena, smatramo da je u datom roku za predaju iste veoma teško to ostvariti na kvalitetan način. Ovim putem Vas molimo da dati rok za predaju dokumentacije produžite za jedan mesec, kako bismo izrazili naše pozitivno interesovanje i učestovali u potpunosti na ovom tenderu.</p> <p>Unapred zahvalni.</p>	<p>Poštovani,</p> <p>Naručilac je razmotrio vaš zahtev.</p> <p>Na osnovu propisanih uslova iz dokumentacije o nabavci i javnog poziva, ističemo da je Naručilac prilikom određivanja roka za podnošenje ponuda, uzeo u obzir sve okolnosti na koje se pozivaju privredni subjekti, vodeći se pri tome značaju postupka za zajedničke Naručioce, Grad Beograd i Republiku Srbiju.</p> <p>U daljem tekstu, obrazložemo stav naručioca:</p> <p>Naručilac je ranije obustavio restriktivni postupak javne nabavke i pristupio izradi konkursne dokumentacije u cilju ponovljenog sprovođenja predmeta javne nabavke u otvorenom postupku - Projekt menadžer za liniju 1 – Upravljanje projektom i nadzor nad izgradnjom beogradskog metroa na lokacijama depo Makiš i Linija 1. Dokumentacijom o nabavci propisano je da svi privredni subjekti moraju uz Obrazac ponude dostaviti isključivo dokaze kojim potvrđuju ispunjenost kriterijuma za dodelu ugovora (cena-kvalitet) u pogledu ponuđene cene, poslovnog i kadrovskog kapaciteta. Naručilac upavo na osnovu dostavljenih dokaza (overa i prevod na srpski jezik), pristupa stručnoj oceni podnetih ponuda i vrši rangiranje istih.</p> <p>Ističemo da je dokazivanje preostalih uslova i zahteva iz dokumentacije o nabavci, svi privredni subjekti prolaze Izjavom o ispunjenosti kriterijuma za kvalitativni izbor privrednog subjekta, dok će isti biti razmatrani po otvaranju ponuda, na zahtev Naručioca putem Portala za javne nabavke, upućen na adresu prvorangiranog ponuđača po kriterijumu (cena-kvalitet).</p> <p>Imajući u vidu način dokazaivanja ispunjenosti uslova i zahteva iz dokumentacije o nabavci, kao i činjenicu da je reč o ponovljenom postupku javne nabavke, mišljenja smo da je Naručilac ostavio primeren rok za prikupljanje nepodnih dokaza.</p>
--	---

	<p>Shodno navedenom, ostajemo pri definisanom roku za podnošenje ponuda, koji glasi 26.12.2022. godine do 12:00 časova.</p> <p>Napominjemo da će Naručilac javnom otvaranju ponuda pristupiti 26.12.2022. godine u 12:30 časova.</p> <p>Zaključak: Odlaganjem roka za podnošenje ponuda, Naručilac bi ugrozio planirane rokove za zaključenje ugovora o izvođenju radova na izgradnji beogradskog metroa. Shodno iznetom, ističemo da je isključivo Naručilac odgovaran za rokove pri realizaciji predmetnog postupka.</p> <p><i>Dear all,</i></p> <p><i>The Employer has considered your request.</i></p> <p><i>On the basis of the prescribed conditions from the procurement documentation and the public invitation, we point out that the Employer, when determining the deadline for submitting bids, took into account all the circumstances referred to by legal entities, taking into account the importance of the procedure for the joint Employers, the City of Belgrade and the Republic of Serbia.</i></p> <p><i>In the following text, we explain the Employer's position:</i></p> <p><i>The Employer had earlier suspended the restrictive public procurement procedure and began to prepare the tender documentation in order to repeat the implementation of the subject-matter of the public procurement in an open procedure - Line 1 Project Manager – Project Management and Supervision Over the Development of the Belgrade Metro at the Makiš Depot and Line 1 Locations. The procurement documentation prescribed is that all legal entities must submit only evidence with the offer form that confirms the fulfillment of the criteria for awarding the contract (price-quality) in terms of the offered price, business and personnel capacity. Based on the submitted evidence (certification and translation into Serbian), the Employer accesses the expert</i></p>

	<p><i>evaluation of the submitted offers and ranks them.</i></p> <p><i>We emphasize that proving the remaining conditions and requirements from the procurement documentation, all legal entities pass the Statement on the Fulfilment of the Criteria for the Qualitative Selection of a Business Entity, while the same will be considered after the opening of bids, at the request of the Employer via the Public Procurement Portal, sent to the address of the first-ranked bidder according to the criteria (price-quality).</i></p> <p><i>Bearing in mind the method of proving the fulfillment of the conditions and requirements from the procurement documentation, as well as the fact that it is a repeated public procurement procedure, we are of the opinion that the Employer has left an appropriate deadline for gathering the necessary evidence.</i></p> <p><i>Accordingly, we remain with the defined deadline for submitting bids, which is December 26, 2022 until 12:00 p.m.</i></p> <p><i>Please note that the Employer will start the public opening of bids on December 26, 2022 at 12:30 p.m.</i></p> <p><i>Conclusion: By postponing the deadline for submitting bids, the Employer would jeopardize the planned deadlines for concluding the contract on the construction of the Belgrade metro. Accordingly, we point out that the Employer is solely responsible for the deadlines for the implementation of the procedure in question.</i></p>

infrastrukturnih projekata u svetu. Moramo takođe napomenuti da smo intezivno prisutni na tržištu Balkana zadnjih 20-tak godina a takođe imamo i našu kancelariju Beogradu od 2011 godine.

Obzirom na veoma kompleksan obim usluga koji se traži predmetnim tenderom, značajan multidisciplinarni tim stručnjaka sa zahtevanim iskustvom koje je potrebno obezbediti, potrebnu dokumentaciju koju je potrebno pribaviti i prevesti na srpski jezik, nadolazeće Božićne i Novogodišnje praznike, molimo Vas da produžite rok za podnošenje ponuda za najmanje 8 (osam) nedelja.

U roku koji je predviđen tenderom, na žalost nije moguce pripremiti kvalitetnu ponudu koja bi zadovoljila Vase zahteve ali i naš standard vezan za pripremu ponuda.

Unapred Vam se zahvaljujemo na razumevanju i nadamo se pozitivnom ishodu našeg zahteva.

na koje se pozivaju privredni subjekti, vodeći se pri tome značaju postupka za zajedničke Naručioce, Grad Beograd i Republiku Srbiju.

U daljem tekstu, obrazložemo stav naručioca:

Naručilac je ranije obustavio restriktivni postupak javne nabavke i pristupio izradi konkursne dokumentacije u cilju ponovljenog sprovođenja predmeta javne nabavke u otvorenom postupku - Projekt menadžer za liniju 1 – Upravljanje projektom i nadzor nad izgradnjom beogradskog metroa na lokacijama depo Makiš i Linija 1. Dokumentacijom o nabavci propisano je da svi privredni subjekti moraju uz Obrazac ponude dostaviti isključivo dokaze kojim potvrđuju ispunjenost kriterijuma za dodelu ugovora (cena-kvalitet) u pogledu ponuđene cene, poslovног i kadrovskog kapaciteta. Naručilac upavo na osnovu dostavljenih dokaza (overa i prevod na srpski jezik), pristupa stručnoj oceni podnetih ponuda i vrši rangiranje istih.

Ističemo da je dokazivanje preostalih uslova i zahteva iz dokumentacije o nabavci, svi privredni subjekti prolaze Izjavom o ispunjenosti kriterijuma za kvalitativni izbor privrednog subjekta, dok će isti biti razmatrani po otvaranju ponuda, na zahtev Naručioca putem Portala za javne nabavke, upućen na adresu prvorangiranog ponuđača po kriterijumu (cena-kvalitet).

Imajući u vidu način dokazaivanja ispunjenosti uslova i zahteva iz dokumentacije o nabavci, kao i činjenicu da je reč o ponovljenom postupku javne nabavke, mišljenja smo da je Naručilac ostavio primeren rok za prikupljanje nepodnih dokaza.

Shodno navedenom, ostajemo pri definisanom roku za podnošenje ponuda, koji glasi 26.12.2022. godine do 12:00 časova.

Napominjemo da će Naručilac javnom otvaranju ponuda pristupiti 26.12.2022. godine u 12:30 časova.

Zaključak: Odlaganjem roka za podnošenje ponuda, Naručilac bi ugrozio planirane rokove

	<p>za zaključenje ugovora o izvođenju radova na izgradnji beogradskog metroa. Shodno iznetom, ističemo da je isključivo Naručilac odgovaran za rokove pri realizaciji predmetnog postupka.</p>
<p>Poštovani,</p> <p>molimo vas da nam razjasnite sledeće pitanje:</p> <p>Prema navikama u objavljivanju tendera u Kini, mnogi tenderi za velike projekte metroa se dele na više lotova i na taj način se potpisuju ugovori o nadzoru. Na primer, dužina tunela za kopanje metodom TBM je veća od 15km na određenom projektu i Investitor ga je podelio u dva lota, gde je naša kompanija preuzeila jedan od lotova. Da li u ovom slučaju Investitor smatra da su uslovi za tender beogradskog metroa u pogledu referenci ispunjeni?</p>	<p>Poštovani,</p> <p>Naručilac će prilikom stručne ocene ponuda uzeti u obzir lotove za koje postoji Potvrda referentnog naručioca/Investitora da je određenom privrednom subjektu poveren deo projekta koji je realizovan, a u potpunosti odgovara uslovima i zahtevima iz dokumentacije o nabavci.</p> <p><i>Dear all,</i></p> <p><i>During the expert evaluation of bids, the Employer will take into account the lots for which there is a Confirmation from the reference client/Investor that a certain legal entity has been entrusted with a part of the project that has been implemented, and fully meets the conditions and requirements from the procurement documentation.</i></p>

began to prepare the tender documentation in order to repeat the implementation of the subject-matter of the public procurement in an open procedure - Line 1 Project Manager – Project Management and Supervision Over the Development of the Belgrade Metro at the Makiš Depot and Line 1 Locations. The procurement documentation prescribed is that all legal entities must submit only evidence with the offer form that confirms the fulfillment of the criteria for awarding the contract (price-quality) in terms of the offered price, business and personnel capacity. Based on the submitted evidence (certification and translation into Serbian), the Employer accesses the expert evaluation of the submitted offers and ranks them.

We emphasize that proving the remaining conditions and requirements from the procurement documentation, all legal entities pass the Statement on the Fulfilment of the Criteria for the Qualitative Selection of a Business Entity, while the same will be considered after the opening of bids, at the request of the Employer via the Public Procurement Portal, sent to the address of the first-ranked bidder according to the criteria (price-quality).

Bearing in mind the method of proving the fulfillment of the conditions and requirements from the procurement documentation, as well as the fact that it is a repeated public procurement procedure, we are of the opinion that the Employer has left an appropriate deadline for gathering the necessary evidence.

Accordingly, we remain with the defined deadline for submitting bids, which is December 26, 2022 until 12:00 p.m.

Please note that the Employer will start the public opening of bids on December 26, 2022 at 12:30 p.m.

Conclusion: By postponing the deadline for submitting bids, the Employer would jeopardize the planned deadlines for concluding the contract on the construction of the Belgrade metro. Accordingly, we point out that the

	<p>Employer is solely responsible for the deadlines for the implementation of the procedure in question.</p>
<p>We kindly request to include a red book contract experience as Engineer/Supervision as sufficient in reference along with yellow book. Please take into account that obligations Contractor and Employer may differ in terms of red or yellow book terms, but for Engineer (or Project Manager) which service is a subject of this Tender, both per red and yellow book obligations are 100% the same in terms of Contract Administration for Engineer, so we do not see a valid reason on insisting only on yellow book experience. Article 7 of Law on Public Procurement clearly prescribes the principle of ensuring competition and prohibition of discrimination, therefore insisting only on yellow book experience, may constitute a violation of this principle. From technical and quality level aspect, there are no difference between 2 books administration for this type of Service. The Contract is administered by the Engineer (appointed by the Employer) who shall determine any claim for extension of time and additional payment, certify payments and issue taking over and performance certificates both red and yellow book.</p>	<p>Naručilac ostaje pri definisanom uslovu iz dokumentacije o nabavci, uz napomenu da će u prilikom stučne ocene ceniti samo ugovore po Yellow FIDICu.</p> <p><i>The Employer keeps the defined condition from the procurement documentation, with a note that during the expert evaluation, he will evaluate only contracts according to Yellow FIDIC.</i></p>

7 Offered price structure PMC

Column 3 - Approximate time of engagement of the expert per working day

We understand that the engagement given in column 3 of document "7 Offered price structure PMC" are only indicative values. However, duration of the project is 7 years + 2 years of DNP, and assigned working days for the Key Expert 2 Construction Manager 1 Civil Engineering and Key Experts 3 Construction Manager 2 Systems is 2,352 working days per position, which correspond to over 9 years or engagement of those Key Experts full time during the DNP too, while the Key Expert 1 Project Manager (Team Lead) has 1,890 working days.

Can you please re-confirm or clarify the actual inputs in working days for three Key Experts?

- Količine iskazane u koloni broj 3. „Okvirno vreme angažovanja stručnjaka po radnom danu“ su okvirne i služe za ocenu ponuda, dok će se iste realizovati po jedničnim cenama iz ponude u skladu sa realnim potrebama Naručioca;“

Shodno iznetom, iz navedenog je moguće doneti zaključak da je reč o okvirnom vremenu angažovanja predstavljen u jednici mere „stručnjak/dan“, dok će se angažovanje svih stručnjaka realizovati po jedničnim cenama iz ponude u skladu sa realnim potrebama Naručioca.

Dear all,

With the procurement documentation, the Employer defined the total term for providing the service for the duration of 112 months, that is, 9 years and 4 months.

During the implementation of the service in question, the Employer will be in constant coordination with the Executor. The Executor is obliged to form a team of experts in a timely manner in relation to the stage of realization of the public procurement subject-matter.

Also, we refer all legal entities to the above in the "Price structure form with instructions on for completion" (Form 10), under paragraph one:

"NOTE:

- Quantities expressed in column number 3 "Approximate time of engaging expert per working day" are indicative and serve for the evaluation of tenders, while they will be realized at unit prices from the offer in accordance with the real needs of the Employer;"

Accordingly, it is possible to conclude from the above that the approximate time of engagement is presented in the unit of measure "expert/day", while the engagement of all experts will be realized at unit prices from the offer in accordance with the real needs of the Employer.

<p>We took note of the re-launch procedure for metro project no.PMC 1/22, with a direct open procedure, compared to the restrictive procedure for the first launch and a limited time for the preparation. We consider that the submission period of only 20 working days is not sufficient to prepare a compliant and qualitative offer for such a complex assignment, with a large team of experts. Moreover, the tender procedure is overlapping the Christian holidays of Christmas, and therefore it will create difficulties for consultants in the preparation, and gathering of documents and ensuring the required translation and authorization in a period of well-known holiday period not only for the companies but also for their experts, as well as for the authorized translation offices. It is also even more restrictive for international companies and thus the deadline is preventing fair treatment and competition.</p> <p>Having into account all the above considerations and explanations, we are kindly requesting an extension of time, respectively with at least 4 weeks period, after the period of celebration for the New Year as well as the Serbian celebrations of Christmas and New Year in line with the old calendar, to allow for the proper gathering of the documents and translations.</p>	<p>Poštovani,</p> <p>Naručilac je razmotrio vaš zahtev.</p> <p>Na osnovu propisanih uslova iz dokumentacije o nabavci i javnog poziva, ističemo da je Naručilac prilikom određivanja roka za podnošenje ponuda, uzeo u obzir sve okolnosti na koje se pozivaju privredni subjekti, vodeći se pri tome značaju postupka za zajedničke Naručioce, Grad Beograd i Republiku Srbiju.</p> <p>U daljem tekstu, obrazložemo stav naručioca:</p> <p>Naručilac je ranije obustavio restriktivni postupak javne nabavke i pristupio izradi konkursne dokumentacije u cilju ponovljenog sprovođenja predmeta javne nabavke u otvorenom postupku - Projekt menadžer za liniju 1 – Upravljanje projektom i nadzor nad izgradnjom beogradskog metroa na lokacijama depo Makiš i Linija 1. Dokumentacijom o nabavci propisano je da svi privredni subjekti moraju uz Obrazac ponude dostaviti isključivo dokaze kojim potvrđuju ispunjenost kriterijuma za dodelu ugovora (cena-kvalitet) u pogledu ponuđene cene, poslovног i kadrovskog kapaciteta. Naručilac upavo na osnovu dostavljenih dokaza (overa i prevod na srpski jezik), pristupa stručnoj oceni podnetih ponuda i vrši rangiranje istih.</p>

	<p>Ističemo da je dokazivanje preostalih uslova i zahteva iz dokumentacije o nabavci, svi privredni subjekti prolaze Izjavom o ispunjenosti kriterijuma za kvalitativni izbor privrednog subjekta, dok će isti biti razmatrani po otvaranju ponuda, na zahtev Naručioca putem Portala za javne nabavke, upućen na adresu prvorangiranog ponuđača po kriterijumu (cena-kvalitet).</p> <p>Imajući u vidu način dokazaivanja ispunjenosti uslova i zahteva iz dokumentacije o nabavci, kao i činjenicu da je reč o ponovljenom postupku javne nabavke, mišljenja smo da je Naručilac ostavio primeren rok za prikupljanje nephodnih dokaza.</p> <p>Shodno navedenom, ostajemo pri definisanom roku za podnošenje ponuda, koji glasi 26.12.2022. godine do 12:00 časova.</p> <p>Napominjemo da će Naručilac javnom otvaranju ponuda pristupiti 26.12.2022. godine u 12:30 časova.</p> <p>Zaključak: Odlaganjem roka za podnošenje ponuda, Naručilac bi ugrozio planirane rokove za zaključenje ugovora o izvođenju radova na izgradnji beogradskog metroa. Shodno iznetom, ističemo da je isključivo Naručilac odgovaran za rokove pri realizaciji predmetnog postupka.</p> <p><i>Dear all,</i></p> <p><i>The Employer has considered your request.</i></p> <p><i>On the basis of the prescribed conditions from the procurement documentation and the public invitation, we point out that the Employer, when determining the deadline for submitting bids, took into account all the circumstances referred to by legal entities, taking into account the importance of the procedure for the joint Employers, the City of Belgrade and the Republic of Serbia.</i></p> <p><i>In the following text, we explain the Employer's position:</i></p> <p><i>The Employer had earlier suspended the restrictive public procurement procedure and</i></p>

began to prepare the tender documentation in order to repeat the implementation of the subject-matter of the public procurement in an open procedure - Line 1 Project Manager – Project Management and Supervision Over the Development of the Belgrade Metro at the Makiš Depot and Line 1 Locations. The procurement documentation prescribed is that all legal entities must submit only evidence with the offer form that confirms the fulfillment of the criteria for awarding the contract (price-quality) in terms of the offered price, business and personnel capacity. Based on the submitted evidence (certification and translation into Serbian), the Employer accesses the expert evaluation of the submitted offers and ranks them.

We emphasize that proving the remaining conditions and requirements from the procurement documentation, all legal entities pass the Statement on the Fulfilment of the Criteria for the Qualitative Selection of a Business Entity, while the same will be considered after the opening of bids, at the request of the Employer via the Public Procurement Portal, sent to the address of the first-ranked bidder according to the criteria (price-quality).

Bearing in mind the method of proving the fulfillment of the conditions and requirements from the procurement documentation, as well as the fact that it is a repeated public procurement procedure, we are of the opinion that the Employer has left an appropriate deadline for gathering the necessary evidence.

Accordingly, we remain with the defined deadline for submitting bids, which is December 26, 2022 until 12:00 p.m.

Please note that the Employer will start the public opening of bids on December 26, 2022 at 12:30 p.m.

Conclusion: By postponing the deadline for submitting bids, the Employer would jeopardize the planned deadlines for concluding the contract on the construction of the Belgrade metro. Accordingly, we point out that the

	<p><i>Employer is solely responsible for the deadlines for the implementation of the procedure in question.</i></p>

o nabavci, sve privredne subjekte upućuje da na odredbe člana 32.–36. Zakona o posebnim postupcima radi realizacije projekata izgradnje i rekonstrukcije linijskih infrastrukturnih objekata od posebnog značaja za Republiku Srbiju ("Sl. glasnik RS", br. 9/2020) – nadalje Zakon o posebnim postupcima, čiji je predlagač Ministarstvo građevinarstva, saobraćaja i infrastrukture, donosilac Vlada Republike Srbije, a koji je stupio na snagu dana 12.02.2020. godine.

Imajući u ranije izneto, ističemo da Naručilac sprovodi predmetni postupak javne nabavke prema odredbama Zakona o posebnim postupcima.

ZAKLJUČAK: Ponavljamo, odredbom člana 34. Zakona o posebnim postupcima, definisan je rok za podnošenje ponuda u postupku iz člana 32. Zakona o posebnim postupcima, koji ne može biti kraći od deset dana od dana objavljivanja poziva za podnošenje ponuda.

Takođe, da je Naručilac obrazložio svoje postupanje navodeći da je definisao primeren rok za dostavljanje ponuda, ne kraći od 25 dana od dana slanja javnog poziva i dokumentacije o nabavci na objavu, što je značajno više od zakonskog minimuma propisanog u članu 34. stav 1. Zakona o posebnim postupcima.

Napominjemo da se Republička komisija za zaštitu prava ponuđača u postupcima, u više navrata pozitivno izjašnjavala na osnovanost primene Zakona o posebnim postupcima, kojim je Projekat izgradnje beogradskog metroa, prepoznat kao projekat od značaja za Republiku Srbiju.

Ističemo da je obaveza svih savesnih privrednih subjekata, koji podnose ponudu u predmetnom postupku bila da se informišu o sadržini predmetnog Zakona.

Ovim smatramo da su nedoumice u vezi sa definisanjem roka za podnošenje ponuda u potpunosti otklonjene.

the date of sending the public invitation and procurement documentation for publication.“

Furthermore, in order to clarify and better understand the conditions and requirements from the procurement documentation, all legal entities are directed to the provisions of Articles 32-36 of the Law on Special Procedures for the Implementation of Projects of Construction and Reconstruction of Line Infrastructure Facilities of Special Importance for the Republic of Serbia ("Official Gazette of RS", No. 9/2020) - hereinafter the Law on Special Procedures, proposed by the Ministry of Construction, Transport and Infrastructure, enacted by the Government of the Republic of Serbia, which entered into force on February 12, 2020.

Bearing in mind the above, we point out that the Employer conducts the said public procurement procedure according to the provisions of the Law on Special Procedures.

CONCLUSION: We reiterate that the provision of Article 34 of the Law on Special Procedures defines the deadline for submission of offers in the procedure referred to in Article 32 of the Law on Special Procedures, which cannot be shorter than ten days from the date of publication of the invitation to submit bids.

Also, the Employer explained its actions by stating that it defined an appropriate deadline for the submission of offers, no shorter than 25 days from the date of sending the public invitation and procurement documentation for publication, which is significantly more than the legal minimum prescribed in Article 34, paragraph 1 of the Law on Special Procedures.

We note that the State Commission for the Protection of the Rights of Bidders in Procedures has on several occasions positively supported the application of the Law on Special Procedures, by which the Belgrade Metro Construction Project was recognized as a project of importance for the Republic of Serbia.

We emphasize that it is the obligation of all conscientious legal entities, which submit an

	<p><i>offer in the said procedure, to inform themselves about the contents of the said Law.</i></p> <p><i>Having stated the above, we believe that the doubts regarding the definition of the deadline for submission of offers have been completely removed.</i></p>
<p>Poštovani,</p> <p>Uzimajući u obzir pitanja/ odgovore od 15.12.2022. godine u okviru kojih je značajan broj zahteva bio usmeren na produženje roka za dostavu ponuda, molimo Vas još jednom da razmotrite opciju minimalnog produženja roka za dostavu ponuda za npr 16.1.2023. godine. Smatramo da to nikako ne može da utiče negativno na rokove definisane u Obimu usluga PMC prema kojem je na strani 31 navedeno da PMC usluga počinje u okviru prvog kvartala 2023. godine. Prema Svetskom kalendaru koji se primenjuje i u Republici Srbiji, prvi kvartal ima 91 dan i završava se zaključno sa 1.4.2023. godine. Takođe određena pitanja su postavljena i 8.12. tako da u slučaju da postoji određena hitnost u postupanju, odgovore na pitanja mogli da postavite i pre 15.12.2022. godine (7 dana nakon postavljanja pitanja).</p> <p>Zaključak Vlade Republike Srbije 05 br. 351-9638/2019-1 od 10. oktobra 2019. godine koji pominjete u javnom pozivu, ni u jednoj tački ne navodi da je postupanje u vezi za izborom Ponuđača za predmetnu uslugu hitno. Rok za važenje ponuda koji ste odredili takođe odstupa od načela hitnosti jer ste naveli 120 dana, a prema zakonu minimalni rok za važenje ponude je 30 dana, što dodatno ukazuje da ne postoji valjan dokaz za insistiranje na kratkom roku. Producenje roka samo može pozitivno da utiče na povećanje konkurenčije i da omogući da inostrani /domaći ponuđači pripreme dokumentaciju nakon božićnih i novogodišnjih praznika koji su neradni dani.</p>	<p>Poštovani,</p> <p>Naručilac je u više navrada istakao da Projekat izgradnje beogradskog metroa, predstavlja projekat od značaja za Republiku Srbiju, što je dokumentovano zaključcima Vlade RS. Ističemo da bez zaključenog ugovora za pružanje usluge upravljanja projektom i nadzora nad projektom izgradnje beogradskog metroa za lokacije depo Makiš i Linija 1, nije moguće pristupiti potpisivanju međudržavnih ugovora sa izvođačima radova, odnosno preuzimanju obaveza u cilju dalje realizacije projekta.</p> <p>Napominjemo da je prvi i osnovni zadatak pružaoca usluge (timu okupljenog oko Project managera - PM), da pruži stručnu pomoć naručiocu pri izradi ugovora o izvođenju radova, kako bi stečena iskustva PM primenili na otklanjanje ili umanjivanje rizika koji može doprineti nastanku posledica nesagledivih razmara po naručioca/investitora. S tim u vezi, Naručilac je prinuđen da najkraćem roku sprovede predmetni postupak, u cilju odabira pouzdanog partnera, sa odgovarajućim referencama i iskustvom.</p> <p>Nadalje, u pogledu definisanog roka važenja ponude od najmanje 90 dana, Naručilac je upravo poučen iskustvom iz ranije sprovedenog postupka nabavke, definisao primeren rok važenja ponude, kako bi osigurao da iste budu važeće i za slučaj da nastupe nepredviđene okolnosti, koje nisu na strani Naručioca. Savestan Naručilac, donosi odluke u interesu predmeta javne nabavke.</p>

Ovim smatramo da su nedoumice u vezi sa definisanim rokova u okviru dokumentacije o nabavci u potpunosti otklonjene.

Dear all,

The Employer has repeatedly pointed out that the Belgrade Metro Construction Project is a project of importance for the Republic of Serbia, which is documented by the conclusions of the Government of the Republic of Serbia. We emphasize that without a signed contract for the provision of project management services and supervision of the construction project of the Belgrade metro for the Makiš depot and Line 1 locations, it is not possible to enter into the signing of interstate contracts with contractors, i.e. assuming obligations in order to further develop the project.

Please note that the first and basic task of the service provider (the team gathered around the Project Manager - PM) is to provide professional assistance to the Employer in the preparation of the contract for the execution of works, so that the acquired experience of the PM can be applied to the elimination or reduction of risks that may contribute to the occurrence of consequences of unfathomable proportions to the Employer/Investor. In this regard, the Employer is forced to carry out the relevant procedure as soon as possible, in order to select a reliable partner with appropriate references and experience.

Furthermore, with regard to the defined period of validity of the offer of at least 90 days, the Employer has, with the hindsight of the previously conducted procurement procedure, defined an appropriate period of validity of the offer, in order to ensure that the offers are also valid in case of unforeseen circumstances, which are not the responsibility of the Employer. A conscientious Employer, makes decisions in the interest of the subject of public procurement.

Having stated the above, we believe that the doubts regarding the definition of the deadlines in the tender documentation have been completely removed.

<p>Dear Sirs, after inspecting the tender documentation, we conclude that the description of the criteria for the qualitative selection of the subject procurement does not contain all the mandatory elements that you require within this procurement in terms of technical and professional capacity and that the document Criteria for qualitative selection and Instructions are not consistent.</p> <p>The instructions should define the way to prove the requirement set by the Investor in document Criteria for qualitative selection, however, the instructions also contain new 2 professional references that are not part of point 3. of Technical and professional capacity within the Criteria for the qualitative selection of the subject procurement.</p> <p>Such action is not in accordance to Law, and creates confusion for potential bidders and makes it impossible to generate a corresponding statement through the Portal, which the Bidder is obliged to submit.</p> <p>Please change the procurement documents and include professional references in point 3.1 Technical and professional capacity with a clear indication of the evidence that bidders are required to submit at this stage of the procedure. Procurement documentation must be consistent in all acts.</p>	<p>Poštovani,</p> <p>Naručilac je na jasan i nedvosmislen način u dokumentaciji o nabavci definisao:</p> <ul style="list-style-type: none"> - Kriterijume za dodelu ugovora i - Kriterijume za kvalitativni izbor privrednog subjekta <p>Shodno iznetom, naručilac upućuje sve privredne subjekte da je u okviru kriterijuma za dodelu ugovora, definisan kriterijum CENA 30 pondera i KVALITET 70 pondera (ekonomski najpovoljnija ponuda). Ističemo da je Naručilac u dokumentaciji o nabavci, dao jasne instrukcije za dostavljanje potrebne dokumentacije.</p> <p>U cilju razumevanja potreba Naručioca, navodimo da komisija naručioca ne može pristupiti rangiranju podnetih ponuda, po zadatom kriterijumu, bez dokaza na osnovu koji je moguće utvrditi ispunjenost traženih uslova. Naime, kako bi odmah po otvaranju ponuda Naručilac pristupio stručnoj oceni, odnosno rangiranju ponuda (po zadatim kriterijumima), neophodni su dokazi kojim privredni subjekti dokazuju ispunjenost traženih uslovima u okviru Kriterijuma za dodelu ugovora.</p> <p>Nakon izvršenog rangiranja, Naručila će putem Portala za javne nabavke zatražiti od najbolje plasiranog Ponuđača PRIHVATLJIVA PONUDA – RANG 1 (naviše pondera po zadatim kriterijumima za dodelu ugovora), da dostavi dokumentaciju kojom potvrđuje ispunjenost traženih uslova u okviru - Kriterijuma za kvalitativni izbor privrednog subjekta.</p> <p>Dodajemo da je Naručilac u dokumentaciji o nabavci, dao jasne instrukcije za dostavljanje potrebne dokumentacije za utvrđivanje ispunjenosti kriterijuma za kvalitativni izbor privrednog subjekta.</p>

Kako bi svi privredni subjekti bili informisani o zakonskom odredbi na osnovu koje je Naručilac definisao način dokazivanja, u daljem tekstu pružamo uvidu u odredbe člana 32. stav 3. Zakona o posebnim postupcima radi realizacije projekata izgradnje i rekonstrukcije linijskih infrastrukturnih objekata od posebnog značaja za Republiku Srbiju ("Sl. glasnik RS", br. 9/2020):

"U postupku javne nabavke iz stava 1. ovog člana ne primenjuju se odredbe zakona kojim se uređuju javne nabavke, a koje se odnose na plan nabavki, prethodno obaveštenje, način dokazivanja obaveznih i dodatnih uslova za učešće u postupku javne nabavke, rokove za podnošenje ponuda i rokove za odlučivanje Republičke komisije za zaštitu prava u postupcima javnih nabavki."

Ističemo, Naručilac je svim privrednim subjektima u dokumentu „Opšti podaci o predmetu javne nabavke“, pružio informaciju o zakonskim odredbama na osnovu kojih sprovodi predmetni postupak, pod stavkom „Vrsta postupka“, tako da glasi:

"Predmetnu nabavku sprovodi JKP „Beogradski metro i voz“ u otvorenom postupku javne nabavke u skladu sa odredbom člana 32. Zakona o posebnim postupcima radi realizacije projekata izgradnje i rekonstrukcije linijskih infrastrukturnih objekata od posebnog značaja za Republiku Srbiju ("Sl. glasnik RS", br. 9/2020), odredbama Zakona o javnim nabavkama ("Sl. glasnik RS", br. 91/2019) i podzakonskim aktima koji regulišu oblast javnih nabavki, u ime i za račun Grada Beograda, Gradske uprave grada Beograda, Sekretarijata za javni prevoz."

Ovim smatramo da su nedoumice u vezi sa definisanim načina dokazivanja ispunjenost uslova i zahteva iz dokumentacije o nabavci u potpunosti otklonjene.

Dear all,

The Employer has, in the tender documentation, clearly and unambiguously defined:

	<ul style="list-style-type: none"> - <i>Contract award criteria</i> - <i>Criteria for qualitative selection</i> <p><i>Accordingly, the Employer instructs all legal entities that within the Contract award criteria, the criterion PRICE-ponder 30 and QUALITY-ponder 70 (economically the most favorable offer) is defined. Sve gore navedeno upućuje na Vašu obavezu da u dokumentu Opis kriterijuma navedete sve tehničke i stručne zahteve i iskustvo koje je potrebno za realizaciju usluge, što u konkretnom slučaju niste učinili.

Naime,

Napominjemo da pozicije 1.1. 1.2. i 1.3. iz obrasca strukture cena nisu navedene u okviru tačke 3.1. Obrazovne i stručne kvalifikacije, što je bilo obavezno u cilju sastavljanja zakonite izjave o ispunjenosti kriterijuma.

Takođe u uputstvu navodite numeričku vrednost pondera samo za pozicije 1.1. 1.2. i 1.3. koje niste propisali kao kriterijum za izbor privrednog subjekta u okviru tehničkog i stručnog kapaciteta. Podsećamo da ste kao kriterijum za tehnički i stručni kapacitet definisali samo pozicije 1.4. 1.5. 1.6 i 1.7.

Napominjemo da je prema članu 133 ZJN pri ocenjivanju ponuda naručilac je dužan da primenjuje samo one kriterijume koji su sadržani u dokumentaciji o nabavci i to na način kako su opisani i vrednovani.

Molimo Vas da izmenite konkursnu dokumentaciju i u dokument opis kriterijuma za kvalitativni izbor privrednog subjekta uključite pozicije 1.1. 1.2. i 1.3. sa opisom kriterijuma.

Poštovani,

Određene uslove i dokaze za pozicije 1.1. 1.2. i 1.3. navodite u Uputstvu ponuđačima za sastavljanje ponuda, što nikako ne može biti protumačeno kao kriterijum za tehnički i stručni kapacitet, jer se ne nalazi u dokumentu Opis kriterijuma za kvalitativni izbor privrednog subjekta što je propisano članom 117 ZJN . Predmetne pozicije moraju biti navedene u okviru obrazovnih i stručnih kvalifikacija, a za koju se primenjuje obavezno pravilo iz člana 118 ZJN kako sledi:

Naručilac je dužan da pre donošenja odluke u postupku javne nabavke zahteva od ponuđača

Poštovani,

Naručilac je ranije obrazložio svoje postupanje. Shodno iznetom, ostajemo pri navedenom u dokumentaciji o nabavci.

Dear all,

The Employer has explained its actions earlier. Accordingly, we are confirming the stated in the tender documentation.

<p>koji je dostavio ekonomski najpovoljniju ponudu da u primerenom roku, ne kraćem od pet radnih dana, dostavi dokaze o ispunjenosti kriterijuma za kvalitativni izbor privrednog subjekta, u neoverenim kopijama.</p> <p>Molimo Vas da izmenite konkursnu dokumentaciju i definišete način dostavljanja dokaza za predmetne pozicije 1.1. 1.2. i 1.3. u okviru tačke 3. Accordingly, we are confirming the stated in the tender documentation.</i></p>

2) da je ponuđač u poslednjih 20 (dvadeset) godina do dana isteka roka za podnošenje ponuda, realizovao najmanje 1 (jedan) saobraćajno-infrastrukturni projekat (izgradnje novih železničkih pruga, autoputeva ili metro sistema), pojedinačne vrednosti veće od 400.000.000,00 eura, pružajući usluge Nadzora na poziciji inženjera prema žutom FIDIC ugovoru. Pojašnjenje kriterijuma: Prilikom stručne ocene ponuda Naručilac priznaje isključivo broj realizovanih nadzora prema žutom FIDIC ugovoru, koji odgovaraju traženom opisu.

Navedeni poslovni kapacitet nije naveden u Opisu kriterijuma za kvalitativni izbor privrednog subjekta. Napominjemo da je prema članu 117 ZJN određeno da Naručilac može da zahteva da privredni subjekti imaju dovoljno iskustva u pogledu ranije izvršenih ugovora.

Navedeni poslovni kapacitet mora da bude uključen i Opis kriterijuma i za njega se moraju primeniti ista pravila iz člana 118 ZJN u pogledu načina dokazivanja ispunjenosti kriterijuma.

Molimo Vas da izmenite konkursnu dokumentaciju i predmetni poslovni kapacitet uključite i dokument Opis kriterijuma u okviru tačke 3.

Poštovani,

U odgovorima od 15.12.2022. godine naveli ste da se prilikom rangiranja pondera broj određuje prema matematičkom modelu na dve decimale, što je apsolutno u skladu sa svim pravnim i tehničkim normativima.

Sa druge strane, u Uputstvu u rubrici „instrukcije za dokazivanje ispunjenosti traženog uslova“ na strani 8 u pogledu poslovnog kapaciteta br. 1 navodite sledeće:

Poštovani,

Naručilac je definisao jedinicu mere u "km". Naime, pojedinačne projekte izgradnje metroa mašinom za gradnju tunela (TBM) izkazuјete u celosti (npr. $8,8 + 2,4 + 10,2 + 15,9 = 37,3$ km), dok zbir svih deonica na projektima izgradnje metroa mašinom za gradnju tunela (TBM) prema instrukciji Naruciocu upisujete tako da glasi 37 km.

Ovim smatramo da su nedoumice u vezi sa instrukcijama Narucioca pri iskazavanju

<p>Prilikom upisivanja zbirne vrednosti po jedinicu mere "km", potrebno je uneti isključivoceli broj. Naime, iskazan zbir deonica na projektima izgradnje metroa mašinom za gradnju tunela(TBM) od 30km i 800m, Naručilac u stručnoj oceni ponuda ceni kao celi broj - 30 km.</p> <p>Molimo Vas za pojašnjenje zašto u pogledu instrukcije za dokazivanje ispunjenosti odstupate od matematičkog modela i 30,80 gledate kao 30 a tenderom je propisana minimalna zbirna ? Zbirna dužina bi morala označava i mogućnost predavanja 2 reference na projektima izgradnje metroa prema kojima 1 projekat ima primera radi 20, 6 km a drugi 8,9 km to bi u zbiru moralo da se računa kao 30,5 km i da je taj ponuđač u prednosti u odnosu na ponuđača koji ima manji iznos.</p> <p>Molimo Vas da uskladite rangiranje ponuda i način vršenja stručne ocene ponuda.</p>	<p>ukupne vrednosti po jednici mere "km" u potpunosti otklonjene.</p> <p><i>Dear all,</i></p> <p><i>The Employer defined the unit of measure in "km". Namely, individual metro construction projects with tunnel boring machine (TBM) are shown in their entirety (e.g. 8.8 + 2.4 + 10.2 + 15.9=37.3 km), while the sum of all sections on metro construction projects with tunnel boring machine (TBM), according to the instructions of the Employer, is written so that it reads 37 km.</i></p> <p><i>Having said this, we consider that the doubts regarding the instructions of the Employer regarding showing the total value per unit of measure "km" have been completely removed.</i></p>
